PROFILE

A proactive Computer Engineering student of L. J. Institute of Engineering and Technology, with strong academic background. Possesses strong leadership and communication skills with fluency in English, Hindi and Gujarati. Keen to pursue project with a focus on Data Analytics and developing Android Applications.

PROFESSIONAL EXPERIENCE

Lead Developer, Designer
UniHelp | Ahmedabad, Gujarat | 2019-2020

In UniHelp, I worked with my team to develop an Android application for Universities, specifically featuring daily faculty and student correspondence.

- I had to code the application instances, and design the database for them.
- We were selected by our college in a faculty-student project, in order to develop the application further.
- We presented the application in a national level technical event, called *Innovation Village-2020.*

Intern
- 2 week Internship Python with Data Science Internship at BrainyBeam Technologies Pvt. Ltd.
- 2 week Internship Python with Data Analytics Internship at Vnurture Technologies.
- 2 week Internship Logic Handling/Data Analysis/API Handling Using Python Internship at InfoLabz.
- Since one month ago started Internship at Cilans Systems.

ACHIEVEMENTS / PROFESSIONAL CERTIFICATES

- Google IT Automation with Python
- Selected in final stage in *The Art School 2010-11* organized by Marvel Art Foundation
- Participated in research of *MOBILIZE! Digital Libraries*, organized *by Initiative at Harvard University And the Omidyar Network's Innovative Solutions Grant,* during summer of 2012
- Coursera Certificates in Specializations: Python for Everybody, Python3 Programming, Improve your English Communication Skills
- Matlab Onramp
